SOIC INFINITY

PORTFOLIO 2021

### **Founded in 2011**

Infinity Co. Founded By **Mrs. Shaimaa Oleba**, after 5 Years of a partnership with **Green Line for Glass Accessories**, both were established in **2006 under name of GL GREEN LINE** in parallel with the work and then in **2011** separated into two companies. Legally in 2013 became independent entity  
Infinity Started as Individual facility began Works in of all Glass Solutions for Interior and Exterior finishes.

### **in 2015**

**Infinity Co.** was expanded to **SOIC INFINITY** as **S.A.E** specialized in Facade Engineering, Fabrication and Installation for Aluminum, Glass Works, UPVC, Curtain wall, Windows, Doors, Rolling Shutter, Handrail Systems and all glass, Aluminum Solutions, from scratch till delivering the project.

### **In 2020**

**Soic Infinity Extended it's Factory to an industrial complex for 4 Production Lins , SOIC is Continuously integrating its scope of Services through various CONSORTIUMS "J.V" and partnerships with Facades technology Designers and manufacturers from across the globe.**

Within a **Co-operation** with Professor Engineering Consultant **Dr. Eng. Adel Anwar Eid. And 13 of famous factories in the same field**, Our unique brand of engineers have the capacity to deliver almost the full range of professional engineering services. Those encompass project identification, pre-feasibility/feasibility studies, properties and site appraisals, site selection, design, Implementation and detailed engineering, construction management and supervision, procurement, inspection, quality control and Laser Scanning..

Started Working in Engineering Training Solutions in ( Façade Engineering ) Exclusively in Egypt, to train and develop engineers and students on Facade Engineering  
This Training Not only covering all theoretical issues but also practical issues through our key players in the construction industries. Glass, Aluminum, Stone, Grc,...etc.

### Vision:

Aiming to contribute in nation-building and effective participation in all engineering sectors within

#### **Egyptian vision 2030**

Be premier company in every market we serve

We have a **vision Within 5 Years started from 2018 to 2023** to be listed as major National company working in the service of Egypt's mega development projects

### Mission:

**SOIC INFINITY** Provide innovative, high quality solutions to problems that work and remain cost-effective

Continually improve our products and services  
Develop and maintain alliances with our clients to share in success

Provide an entrepreneurial environment that recognizes performance

Attract and retain high caliber, motivated and skilled professionals

Grow and diversify without compromise to quality or profitability

### Values

**SOIC INFINITY** applying state-of-the-art technologies whilst adopting an exceptional quality assurance system and seeking innovation and improvement. We thrive upon challenge and accomplishment.

Ethics. Enduring commitment to professional ethical standards is deeply ingrained in every professional conduct and business action undertaken by all our staff members. Moral accountability and social responsibility is the backbone of our firm's operations.

Sustainability. Committed resolution to promote the short-/long-term future welfare of our company, our customers, and the world we live in, is the force empowering our continued growth and expansion.

Operate with integrity and accountability Promote innovation and leadership Value openness, trust, and respect Encourage teamwork

# 2021 Pipeline Forecast

2021 Pipeline Forecast 126 MEGP  
Growth = 172% VS 2020

Actually we started **SOIC INFINITY** as an entity, Since then using our accumulative capabilities & experiences, We made huge steps forward & marked our success in several projects. and multiple projects have been concluded In different cities Our multidisciplinary portfolio specialized in Facade Solutions includes all Glass and Aluminum Works (interior and Exterior ), end with Engineering Training

**We train our employee and develop them usually.**

We hold a high experience represented in administrative, engineers, technicians and employee, and stacked with high technical instruments that produce our own high quality products with many brands and systems.

We try to seize opportunities and avoid threats by building a strong company base, forming partnerships and maximizing cooperation

Committed to always keep developing to lead the market, going beyond clients expectations and specifications of consultants

We always sharpen the saw to prove what we are

### **A message from the chairman** **Entity born with know how of the responsibility.**

As we are living in a new era of rapid technological development and there are mega-projects under designing / construction, with billions of dollars being spent on those projects,

And Egypt now it's in the opening stage of technological development of new Facade, we aim to return to the era of leadership, for this we work with sincerity and commitment in all our actions and vision about promising future in Egypt, offering the best of our hard work to maximize market share through Customer satisfaction and confidence in dealing with us. Customer always trapped to decide between quality and safety, regardless of the price, considering the reflection of critical political and economic conditions Egypt has witnessed in previous years on real estate market whether residential or commercial or administrative while now we are going through rapid and successive changes. So, we work hard to achieve the difficult equation to balance quality, price and save time and money without ignoring sustainability.

*Shaimaa Oleba*

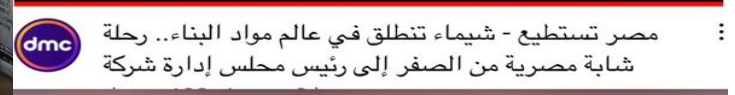

[www.infinityfacadeacademy.org](http://www.infinityfacadeacademy.org)

**and As part of our commitment to Egypt,** And as most of Industry Leaders are either prestigious consultancy firms or technical office engineers and under graduates and post graduates engineers working for manufacturing companies and Construction, We Started **professional diploma in FACADE ENGINEERING. Exclusive in Egypt** Not Only Covering All Theoretical Issues but, Also Practical Issues Through Our Key Players In The Construction Industries. in collaboration with Egyptian Engineers Syndicate and outstanding companies and factories in Egypt especially in the field of facades and green building engineering work, while providing effective training opportunities especially in the engineering sector in order to achieve integration between all the institutions to contribute to the advancement of Egypt.
